

# Promise-Auto DAQTest

## --Test Management Platform

### Overview

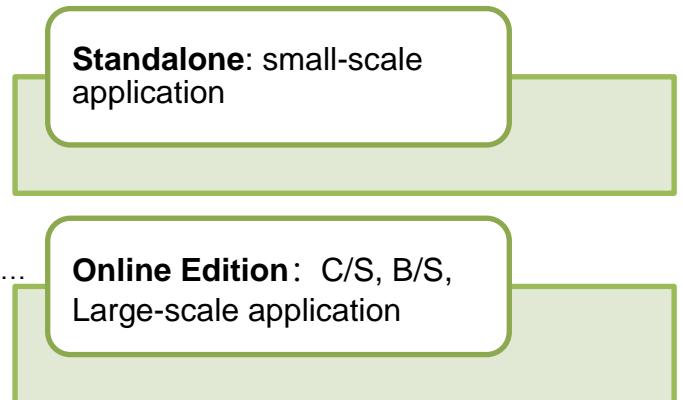

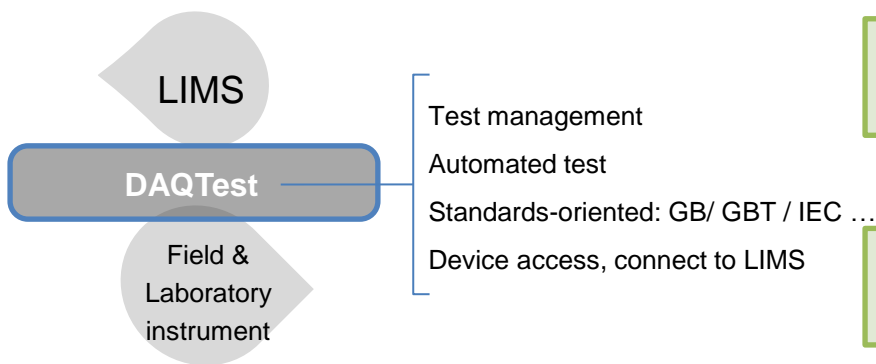

Base on many years of rich experiences and technology accumulation in the field of test and measurement, Beijing Promise-auto Technology Co., Ltd. has developed a professional test management platform software – DAQTest, Which is widely applicable , reliable and customizable for manufacturers , laboratories and inspection and certification companies.

DAQTest can collect data from various instruments such as recorders, power analyzers, field instruments, etc. , and control the start and stop of tests according to the logic of the test, statistics, output customized reports.

The goal of DAQTest is to standardize the test process, improve test efficiency, reduce manual involvement and make full use of test data.

### Product Concept

Factories, laboratories , testing institutions

# PROMISE AUTO

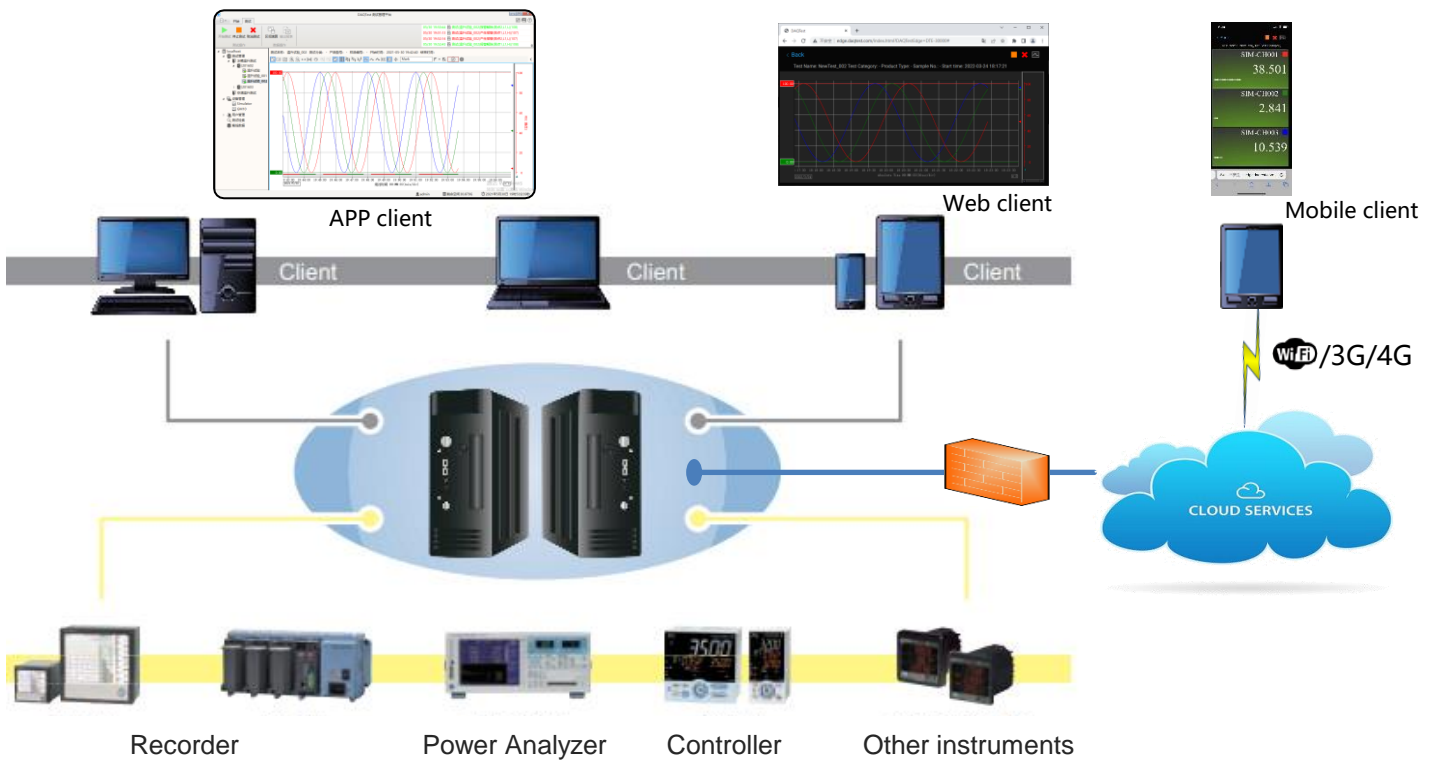

Beijing Promise-auto Technology Co., Ltd.

Room 1009, Building 2, No. 222 Datun Road, Chaoyang District, Beijing, P.R.China

[www.promise-auto.com](http://www.promise-auto.com) 8610-68944158 , 86-13466402671

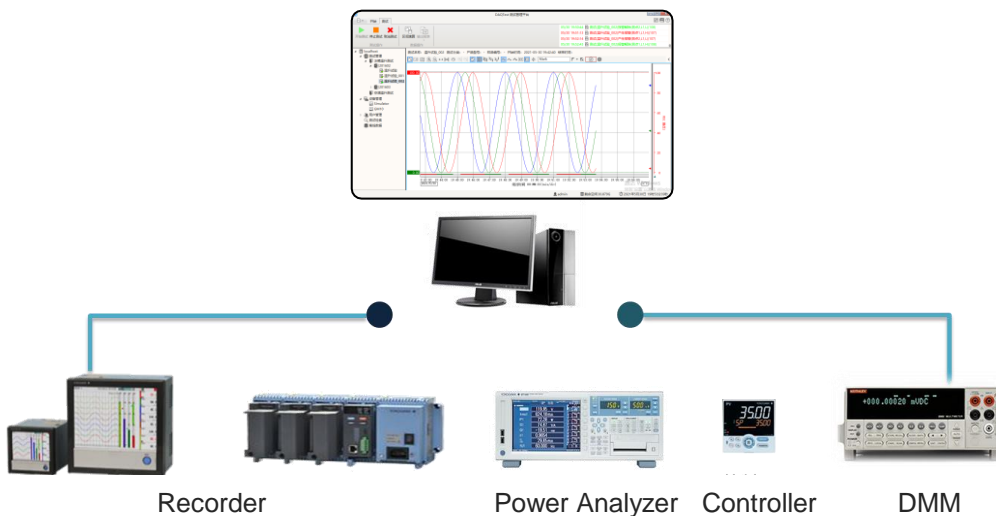

## DAQTest Online Edition

- Windows folder-like test management
- Compatible with acquisition and control of various hardware devices
- Rich test monitoring interface, data export, report generation
- Support professional temperature rise test
- role-based rights management
- Data backup and recovery, operation log

## DAQTest Standalone

- Support customized tests
- Support math channels
- Support dual interval test
- Support high-speed devices such as ScopeCorder

## Supported Devices

Manufacturers	Device Kind	Device Type	Comment
YOKOGAWA	DAQ	GM,GP,GX	
		MX100, MW100	
		DA, DR, DC, MV, DX, FX	
		VZ20X	Supports 1ms interval
	Power Analyzer	WT series	
	ScopeCorder	DL950,DL850E,DL350,SL1000	Only stand-alone version is supported
	Manometer	MT300	
HIOKI	DAQ	LR8450	
	Power Analyzer	PW8001, PW6001	
AMETEK	Recorder	EX1401, EX1000A	Supports 1ms interval
Keysight	DAQ	34970A,34972A	
Fluke	Power Analyzer	NORMA5000	
EEC	AC Power	EEC6500,EEC6700,EEC-EAB-160	
GRAPHTEC	DAQ	GL240, GL840	
ITECH	DC Power	IT6500	
	AC Power	IT7326	
	Bi-directional Power	IT6000C	
	Load	IT8702+8732	
	Load	IT8500,IT8600,IT8800,IT8511AG+	
ZLG	Power Analyzer	PA5000	
Huawei	Power	UPS5000	
SOARING	Load	Load	
QINGZHI	Power Analyzer	8930	
Ainuo	Power Analyzer	AN8721P	
NGI	DAQ	N8050C, N8050D	
PICO	ScopeCorder	PICO2000	Only stand-alone version is supported
	Modbus Device	Modbus	Use Modbus define file
	CAN Device	CAN(ICP DAS, Kvaser, ZLG)	Use CAN define file
	Virtual Device	Simulator	Virtual Data Generator

## Model and Description

Model	Suffix Codes	Extension Codes	Description
DAQT101			Test Management Platform (Standalone)
Model	Suffix Codes	Extension Codes	Description
DAQT102			Test Management Platform (Online edition)
	-Cx (x: client number)		Client number (one client includes one test)
	-Ty (y: test number)		Added test number
